Plan Description

The Lamar County Board of Supervisors administers the County's health insurance plan, which is authorized by *Sections 25-15-101 et seq., Mississippi Code of 1972 Annotated*. The County's health insurance plan may be amended by the Lamar County Board of Supervisors. The County purchases health insurance coverage from a commercial insurance company and offers health insurance benefit coverage through the County's health insurance plan (the Plan). Since retirees may obtain health insurance by participating in a group with active employees and consequently receive a health insurance premium rate differential, the County has a postemployment healthcare benefit reportable under GASB Statement 75 as a single employer defined benefit health care plan. The County does not issue a publicly available financial report for the Plan. However, the County has not recorded a liability for other postemployment benefits nor has the County reported the note disclosures, which are required by accounting principles generally accepted in the United States of America.
