Arbitrage Rebate and Debt Covenant Requirements

The federal Tax Reform Act of 1986 imposes a rebate requirement with respect to some bonds issued by the County for the RTC. Under this Act, an amount may be required to be rebated to the United States Treasury (called "arbitrage") for interest on the bonds to qualify for exclusion from gross income for federal income tax purposes. Rebutable arbitrage is computed as of each installment computation date and as of the most recent such date the RTC's management believes that there is no rebutable arbitrage amount due. Future calculations might result in adjustments to this determination.

Long-term debt obligations are subject to restrictive debt covenants, including certain revenue levels, debt service coverage ratios and maintenance of a debt reserve account, for which management believes the RTC, is in compliance.

Deferred outflows of resources and deferred inflows of resources

Deferred outflows of resources for RTC consist of \$3,509,628 in unamortized losses on refunded bonds. Deferred inflows of resources for RTC consist of \$9,484,596 in unamortized gains on refunded bonds.
