Direct Borrowings and Placements

The Town has issued notes from direct borrowings and placements to the MCWT under its State Revolving Loan Fund. The financing agreements with the MCWT contain a provision that in the event of default, outstanding amounts due and payable shall be paid from any undisbursed proceeds on account or be deducted from any state local aid distributions owed to the Town. This provision also allows the MCWT to declare the entire outstanding principal amount due immediately. The Town has imputed interest on a zero percent MCWT note issued for water projects and recognizes an interest subsidy annually. Any other imputed interest was immaterial.

The Town also has an outstanding direct borrowing issued through the Massachusetts State Building Authority which was issued for \$2,142,297, pays interest at 2.0% and matures on November 1, 2028.

Subsequent Event – On November 12, 2025, the Town issued general obligation bonds totaling \$11,125,000 paying interest at 4.0-5.0% per annum and maturing at various dates through November 1, 2045. The proceeds of the bonds, along with \$1,450,000 of available Town funds
